Your checklist

For best quality and smooth production make sure that your design meets our specification and use our checklist.

- ☐ **Graphics**
The design should contain vector graphics (preferred format) or/and embedded bitmap graphics with resolution over 300 dpi.
- ☐ **Colours**
Use only PANTONE® colour palette.
- ☐ **Lines & Text**
The lines should not be thinner than 0.6 pt.
The text size should not be smaller than 8 pt.
Make sure all texts are converted to outline before uploading file.
- ☐ **Safe Area**
Make sure that all important elements of your design (logo, text etc.) are placed at least 2 mm from the template edges.
- ☐ **Printable Area**
Design should be placed within designated printable area and it cannot be exceeded.
